

Submission of Bug Report To Advora

Tested Software URL: <https://testing-assessment-foh15kew9-edvora.vercel.app/>

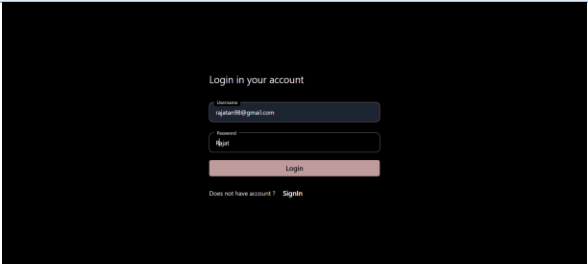

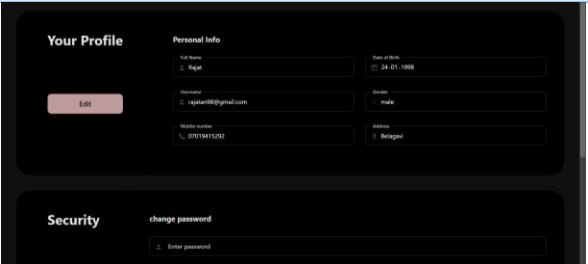

Tested Date: 01/Sep/2022 to 03/Sep/2022

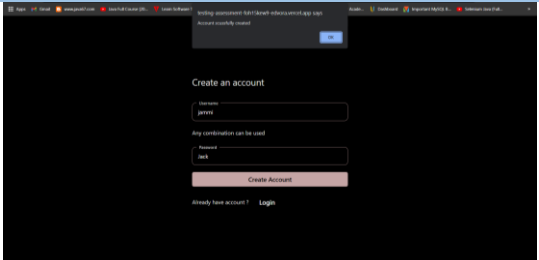

Tested By: Rajat Neelammanavar

Summary

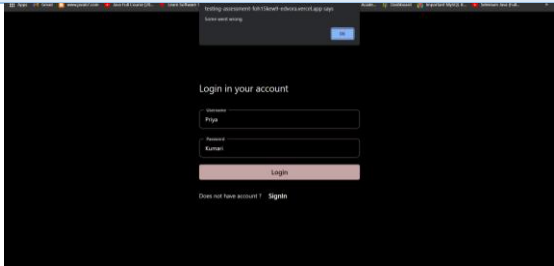

The bug report includes Functional defects, Performance defects and Content defects. I have manually tested the software to write testcases and verified the defects. The software has major performance defects and it performed well in some scenario. The functionality of each feature is dependent so if one feature doesn't work properly then it will affect other feature. Also, it has content defects that is, the content used are not sentence case, has spelling mistakes and wrong sentence that doesn't point to the issue.
